Omelette Recipe

Ingredients:

- 3 Eggs
- Salt (to taste)
- Pepper (to taste)
- Butter (for cooking)
- Grated cheese (optional)
- Mixed herbs (optional)

Method:

1. **Preparation:** Crack the eggs into a bowl or jug. Add salt, pepper, and herbs if desired. Mix gently with a fork until just combined.
2. **Heat the Pan:** In a reasonably large frying pan, heat a small amount of butter over medium heat until melted.
3. **Cook the Eggs:** Slowly pour the egg mixture into the pan. As the eggs start to cook, swirl the pan gently to help the eggs spread evenly.
4. **Add Fillings:** After about 30 seconds, when the bottom is starting to set, you can add grated cheese or any other fillings you prefer.
5. **Finish Cooking:** Allow the omelette to cook until the top is just set but still slightly runny. If you're using a lot of fillings that make it hard to fold, place the pan under a grill (broiler) for a minute to finish cooking.
6. **Fold and Serve:** If the omelette is firm enough, fold it in half with a spatula and slide it onto a plate. If it needs more cooking time, let it sit on the heat for a minute longer.
7. **Garnish:** Serve immediately with optional extra toppings like herbs or additional cheese.

Enjoy your omelette!
