

how-to-cook-the-omelette

To cook a perfect omelette, follow these steps:

Ingredients:

- 3 Eggs
- Salt and Pepper (to taste)
- Butter (or oil for frying)
- Grated cheese (optional)
- Mixed herbs (optional)

Method:

1. **Mix the Eggs:** In a bowl or jug, crack the eggs and mix them with salt, pepper, and herbs, if desired.
2. **Heat the Pan:** Place a reasonably large frying pan on medium heat and add some butter (or oil) to coat the bottom.
3. **Add the Egg Mixture:** Pour the egg mixture into the pan slowly. As it cooks, swirl the pan slightly to help evenly distribute the eggs.
4. **Cooking the Omelette:** Allow the omelette to cook for about 30 seconds. The top should firm up, and if you like, you can add grated cheese at this point.
5. **Fold the Omelette:** Once the cheese begins to melt and the bottom is nicely cooked, gently fold the omelette in half using a spatula.
6. **Final Cooking:** If the omelette is firm on the bottom, it's ready to serve. Otherwise, continue cooking for a little longer on each side until cooked to your preference.
7. **Serve:** Transfer the omelette to a plate and enjoy! For a loaded omelette, consider adding vegetables or meats, but be prepared to finish it under a grill if it's too full to fold.

For further customization, you can add additional ingredients like onions, chopped sausages, or other vegetables.
